P R O M O T I O N

**The Pro Expo** is our top of the range commercial frame, designed for regular use in all types of weather. HUGE hex shaped 2" wide legs are at the heart of the frame construction. All brackets are manufactured from high quality aluminum, and the frame features oversized aluminum feet for added stability! Available in metallic silver, black or blue.

**The Trader Series** frame is also manufactured from the same high strength aluminum, with brackets molded from high grade plastic and nylon. The 1.6" wide hex shaped legs provide stability in sun, wind and rain. The Trader Series frames are lighter yet stronger than the Steel Sport Series.

**The Steel Sport** is our entry level frame, featuring a high quality textured powder coating and 1.3" wide square legs. All brackets are manufactured from the same plastic and nylon mold as the Trader Series.

### Frame Range Warranty
