INTRODUCING OUR NEW PIVOTING HALF WALLS

The ingenious pivoting side wall system is available as an upgrade to any package with half height walls. The unique pivoting design allows you to 'open' and 'close' your tent, while also being able to position your branding in the most advantageous direction.

Each wall is supported by a T shaped aluminum leg, and stability can be further increased by using our interlocking 22lb or 44lb weight plates.

Available in all sizes, please contact your Sales Advisor for upgrade pricing!
